

# City Water Service Connection – Sikh Temple, Gurdwara October 6, 2020

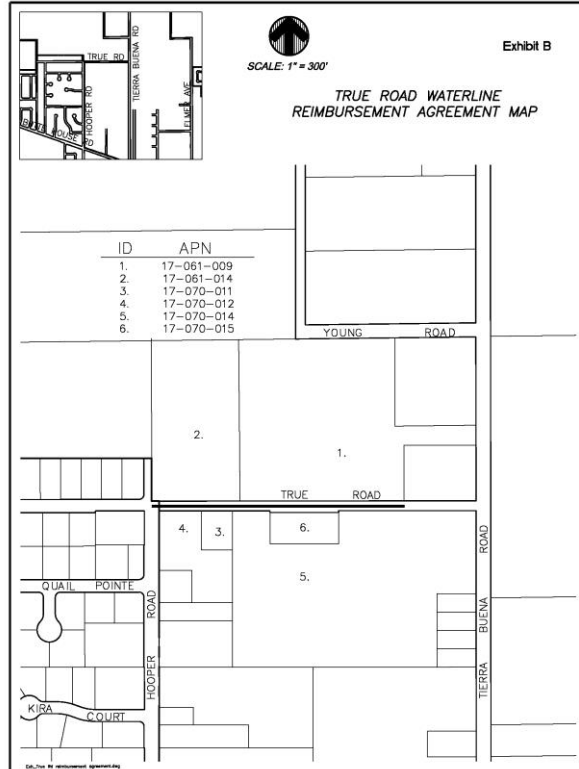

**Presentation By:**  
**Diana Langley, Interim City Manager/Public Works Director**

# Background

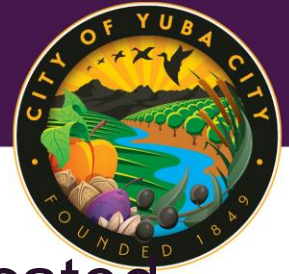

- The Sikh Temple, Gurdwara has had difficulties meeting State drinking water standards at its Tierra Buena/True Road properties.
- The Sikh Temple, Gurdwara has constructed a new waterline extension of the City's water system in True Road in order to switch from its groundwater wells to City water.

# Location Map

# Analysis

- Since the The Sikh Temple, Gurdwara is located outside of the City limits, an Extraterritorial Water Service Agreement must be approved by Council.
- If adjacent properties would like to connect to the waterline extension paid for by The Sikh Temple, Gurdwara, the Reimbursement Agreement will allow the City to collect those properties' fair share of the waterline extension costs and disburse those funds to The Sikh Temple, Gurdwara.

# Recommendations

- Adopt a Resolution authorizing the City Manager to execute an Extraterritorial Water Service Agreement with the property owner of 2468 Tierra Buena Road and 2620 True Road for connection to City water service following approval as to legal form by the City Attorney, subject to material terms.
- Adopt a Resolution approving the execution of the True Road Reimbursement Agreement with The Sikh Temple, Gurdwara for the installation of a water line in True Road (between Hooper Road and Tierra Buena Road).
